

Vinyl Dance Floor Layout Guide and Assembly Tips

SETUP:
 Start at UPPER LEFT 1st Row 1st Section with F Loop facing to the bottom and right, work to right until completing first row then . . .
 Move to 2nd Row 1st Section and work to right until second row is completed then . . .
 Move to 3rd Row 1st Section and work to right until finishing third row and continuing on until floor size desired is completed.
 Once finished assembling dance floor Sections - attach edging pieces - Again starting at the upper left corner.

SETUP TIPS:
 •Watch closely that F Loop locations match diagram. •Attach each piece of paneling to previous panel by using F Loop & M Peg. •Be sure each section is locked in place to previous section by snapping completely into adjoining piece(s) • When finished be sure that all pieces are flush with entire dance floor surface.

TAKEDOWN:
 Remove edging first by pulling up in a tearing motion. Gently pull 3'x3' sections apart by using a pull up motion. Place your weight on the left panel while pulling straight up on the right panel. DO NOT force or break connectors. The key is to use care when taking floor apart.

MATERIALS LIST # of Pieces

3' x 3' Dance Floor Sections - _____
(Each 3'x3' Section is made up of 9 1'x1' pieces)

Corner Edging: - 4

Straight Edging F Loop: - _____

Straight Edging M Peg: - _____

Additional Outdoor TIP:
 •Dance Floor is made to be lightweight and flexible. The dance floor will lay with the contour of the land. Please remember that it is best to let the dance floor settle for several hours once dance floor is together when installed on grass. Try and find the most level surface.
